

Product Description	Mars - M890-40
<p>This player is amazingly light and has a cool metal design. The 1" full colour OLED display isn't wasted as video playback is possible with supplied Transcoder. It has multi-language, lyric support and an EQ function contributes to excellent quality sound. It supports voice recording and FM recording via the FM radio. Media is loaded easily via a PC (USB) and the built in rechargeable lithium battery gives a playing time of approx. 8 hours.</p>
